Premilineries					
General					
	The Tenderer shall refer to the Specification and Drawings for full particulars and descriptions of workmanship and materials and shall include for the full intent and meaning thereof in the prices of items herein				0.00
	The 'Bill of Quantities' (BOQ) has generally been measured in accordance with Australian Standard Method of Measurement (ASMM) with departures made in some cases for ease of contractor pricing. The purpose of the BOQ is to assist the Tenderer in arriving at a Lump Sum Tender Price. The Tenderer shall make its own investigations and allow within Lump Sum Tender Price for all works material required to complete the works. Any major anomalies shall be clarified during tender period, prior to submission of tender. The price of additional works contained in any further Addenda shall be included in the Tender Price as a revision to the BOQ.				0.00
	The unit cost includes both the Labour and Material costs for all items U.N.O				0.00
Premilineries					
	Allow for mobilization				0.00
